

MAKE YOUR MARK®

CHALK LINE REELS STANDARD SERIES

STANDARD CHALK LINE REELS

They fit in your hand, tool belt, or tool bag. Thin lines wherever and whenever you need them. Geared rewinds are a time saver. Braided lines are stronger and require fewer replacements. These chalk line reels come with thin multi-material (cotton and polyester) lines for pinpoint accuracy and increased strength.

P100

UNIQUE SHAPE AND SPECIAL LINE

A great reel for corner work.

- Holds 100 feet of heavy-duty polycord, braided line for superior strength.
- Hook end to allow one person operation.
- Heavy-duty steel crank handle for longer life.

GB1 / GB1NEON

PLASTIC, 3X HIGH-SPEED REWIND

- High-speed, 3X rewind will re-chalk your line quickly.
- Sturdy case will take the abuse any job site can dish out.
- Clutch lets you pull the string out without knuckle-busting on a whirly handle.
- No-Spill grommet keeps refills clean and easy.

FB2

A standard, cost effective chalk line reel. This reel has been in our line since the beginning.

- Self-sealing grommet for spill-free refills.
- Great little reel at a great price.
- Doubles as a plumb bob.

K1

The basic metal chalk reel. Solid construction, consistent performance at a great price.

- Compact and super light.
- Doubles as a plumb bob.
- Self-sealing grommet for spill-free refills.

Limited warranty.
