#1198 YELLOW

#1199 BLUE

Charge with the power of the sun. No need for chargers, batteries, or electricity. When placed in the sun it will collect solar power in the large NiMH batteries for use up to 120 hours at night. Flashes approximately 60 times/minute. Housing is weatherproof and durable.

**Ideal for traffic and construction safety.
See back for other uses.**

APPLICATIONS

- Place inside of rubber traffic cones
- On top of barricades
- Mount to walls or poles

USES

- Road construction
- Signal traffic safety hazards
- On build sites
- In warehouses, airports, or other facilities
