

WET FLOOR SIGN HOLDER

Features & Benefits

- An ideal solution to alert the public to a slipping hazard
- A secure support for up to 7 commonly used wet floor signs
- Silver powder-coated steel construction to maintain its professional appearance

Description

Failure to alert customers or public traffic to a slip hazard due to wet floors can lead to big problems. Wet floors include those just wet mopped, entranceways on rainy days, spilled juices and other liquids on supermarket aisles, in restrooms, and other floor areas subject to wetting. It is negligent for business owners not to display wet floor alert signs when situations warrant. Protect your business or institution by installing Alpine ALP499-HOLDER wet floor sign holders adjacent to any location subject to wet floors that could be hazardous.
