

New Sleek Design!

PXB Series Parallel Straightedge Drawing Boards

Professional-quality portable drawing and drafting board with built-in parallel straightedge for all kinds of creative and technical applications.

Available in these sizes:

PXB21	16" x 21"
PXB24	18" x 24"
PXB26	20" x 26"
PXB31	23" x 31"
PXB36	24" x 36"
PXB42	30" x 42"

Perfect for students and those who need an accurate drawing surface but don't have the space for a full-size drafting table!

PXB Series Parallel Straightedge Drawing Boards

- Generously sized fine tune adjustment knobs and brakes made from hard rubber are located on both sides of straightedge for easy adjustment and secure locking.

- Aluminum straightedge has soft, rubber grip edges for enhanced comfort and control when lifting the blade over drawings.
- Straightedge can travel within 1/4" of the top and bottom edges of the board to maximize usage of the entire board surface.
- Acrylic blade is 2.5mm thick and features inking edges to minimize smudging.

- Large, comfortable carry handle with rubber grip.

- Wire capture knobs under the board have built-in screw stops to prevent the knobs from accidentally falling off.

- Solid wood board with smooth, white Melamine surface is a strong 16mm thick.
- Fully assembled, compact, and ready to use!

PXB Series Packaging

Every box includes a step-by-step operation and maintenance instruction sheet, with the same information printed on a label on the back of the board.

Each board is carefully packaged in a heavy-duty carton with reinforced corners and center support.

4-color printing on white corrugated carton, featuring product illustration, feature close-ups, and bulleted features and benefits. All cartons are individually UPC-coded.

- Folding steel legs with rubber feet that won't scratch the table it's placed on. Able to position in convenient working angles. The three largest PXB's have longer folding legs for a better working angle.
