TIME MASTER™ II

MODEL 9130

Time-Math Calculator

The **Time Master II** is a versatile, easy-to-use calculator for time-math measurements and conversions, schedules, rate-based estimates and solving elapsed time calculations using its built-in stopwatch/timer. It is an excellent choice for Broadcasters, Electronic Media Editors, Pilots, Flight Attendants, Travel Professionals and Production Schedulers.

Instantly determine time-based costs and rates for billing and estimates. An ideal tool for Cooks and Chefs monitoring cooking time — up or down. Students and public speakers time presentations. Coaches and Athletes use the **Time Master II** Stopwatch and Timer with Split/Lap feature to track elapsed times and performance.

Quickly Perform Tedious Time-Math Calculations

Accurately Track or Schedule Hours

Cut Production Costs and Scheduling Errors

Built-in Stopwatch and Timer with Alarm

Time Master II is the ideal choice for:

- Electronic Media Producers and Editors
- Pilots and Flight Attendants
- Travel Agents

- Coaches and Athletes
- Accountants
- Schedulers
- Truck Drivers

- Estimators
- Chefs
- Consultants
- Trainers and Speakers
