

Makita[®]

1/2" ANGLE DRILL

TRIPLE GEAR REDUCTION SYSTEM ENGINEERED FOR MAXIMUM PERFORMANCE

Ball and Needle Bearing Construction for Longer Tool Life

2-Speed (300 and 1,200 RPM) for Increased Drilling Versatility

Built-in Clutch Reduces Gear Damage by Disengaging Gears if Bit Binds

Weighs Only 9.5 lbs. for Easier Operation

Rocker-type Reversing Switch for Forward/Reverse Operation

Powerful 7.5 AMP Motor for Improved Performance

POWER

Triple gear reduction system engineered for maximum power

DURABILITY

Ball and needle bearing construction for longer tool life

EFFICIENCY

Built-in clutch reduces gear damage by disengaging gears

VERSATILITY

2-Speed (300 and 1,200 RPM) for increased drilling versatility

Model
DA6301

POWER AND TORQUE.

1/2" ANGLE DRILL

Model DA6301

FEATURES & BENEFITS

- Ball and needle bearing construction for longer tool life
- 2-speed (300 and 1,200 RPM) for increased drilling versatility
- Triple gear reduction system engineered for maximum power
- Built-in clutch reduces gear damage by disengaging gears if bit binds
- Weighs only 9.5 lbs. for easier operation
- Rocker-type reversing switch for forward/reverse operation
- Powerful 7.5 AMP motor for improved performance
- Large 2-position side handle for increased operator comfort and control

STANDARD EQUIPMENT

- Drill chuck (763062-6)
- Chuck key (763432-9)
- Side handle (183584-4)
- Steel tool case (181791-3)

SPECIFICATIONS

Capacity: Steel	1/2"
Wood	4-5/8"
No load speed: Low	300 RPM
High	1,200 RPM
AMPS (120V)	7.5
Dimensions (LxWxH)	16-1/8" x 4-3/4" x 6-11/16"
Net weight	9.5 lbs.
Shipping weight	19.8 lbs.
UPC code	088381-034982

OPTIONAL ACCESSORIES

- Hole saws

- Hole saw set (714051-B)

- Industrial ship augers - for wood

- Self feed bits - for wood

Model DA6301
