

Automatic Builders' Levels F-Series

Automatic Builders' Levels F-Series

Nedo's F-series builders' levels feature first-class optics with 24x, 28x or 32x magnification, a rugged full metal housing, and a top quality air-damped compensator. Just right for use under tough conditions.

Features:

- Automatic builder's level with 24x, 28x or 32x magnification
- Bright optics with large objective aperture
- Sturdy, reliable magnetic-damped compensator
- Sturdy metal housing
- High-contrast image
- Inspection record
- Comes with plumb bob, adjusting pin and robust case
- Available as a set with rod and tripod upon request

Automatic Builders' Levels F-Series

Technical data:

	F24	F28	F32
Model	F24	F28	F32
Optics	upright	upright	upright
Magnification	24x	28x	32x
Clear objective aperture	1.2" / 30 mm	1.2" / 30 mm	1.6" / 40 mm
Shortest focusing distance	23.6" / 0.6 m	23.6" / 0.6 m	23.6" / 0.6 m
Additive constant	0	0	0
Multiplication factor	100	100	100
Compensator operating range	±15'	±15'	±15'
Setting accuracy	±0.5"	±0.3"	±0.3"
Horizontal circle	360°	360°	360°
Accuracy 1 km Double run leveling standard Deviation	±0.1" / ± 2.5 mm	±0.08" / ± 2.0 mm	±0.06" / ± 1.5 mm
Protection class	IP 54	IP 54	IP 54
Weight	2.8 lbs. / 1.26 kg	2.8 lbs. / 1.26 kg	2.8 lbs. / 1.26 kg
