

RM10V

N95 Particulate Respirators with Valve

Part	Description
RM10V	N95 particulate respirator with one way valve for easy exhalation

- **Fit** – One size fits all.
- **N95** – 95% efficient respiratory protection in non-oil areas.
- **Proper design** – Large coverage providing a comfortable fit for the user.
- **Elastic straps** – Ultrasonically welded straps eliminate the need for staples which can irritate the skin.
- **Smooth layers** – Soft, smooth outer and inner layer is comfortable on the skin, unlike other makes which can be uncomfortably rough.
- **Adjustable nosepiece** – Outer aluminum nosepiece holds shape and provides a proper fit during use.
- **Durable shell** – Thick materials prevent collapsing and provide extended use.
- **Material** – Maintenance-free construction and material offers low breathing resistance.

- **Foam Strip** – Inner foam strip reduces the potential for eyewear fogging.

Standard:
This product has been tested and meets the NIOSH standard of N95. The main performance tests in this standard are: filter penetration & breathing resistance.

Markings:
RM10V TC-84A-5411 NIOSH N95

Packaging:
Box: 10 pcs
Case: 12 boxes

APF:
Assigned Protection Factor: 10

Usage:
<p>Use Against: NIOSH approved for protection against particulate aerosols free of oils. Pyramex recommends this respirator for use against particulates containing materials such as flour, iron ore, coal and minerals.</p> <p>Do Not Use Against:</p> <ul style="list-style-type: none"> • Vapors, paint spray, oil-based aerosols, asbestos and sand blasting. • Any contaminant whose concentration is unknown, or immediately dangerous to life. • Concentrations of dust and mists which exceed the maximum use of concentration or 10 times contaminant's permissible exposure limit established by OSHA.
