

ALUMINUM STAGING PLANKS

1 Complete Staging System

When using joinable stages, the ULTRA-Jack® can be configured with two stages joined together and secured directly over a mid-pole and ULTRA-Jack®, providing a continuous hazard free work-surface.

2 New Joinable Ends

Ends butts to create a smooth, continuous walkway.

3 OSHA Compliant

A full guardrail package is available. Conforms to ANSI & OSHA requirements when installed in accordance with instructions.
