

**ADJUSTABLE HANDLE**

## Double Socket Ratchet Wrenches

Adjustable handle helps get to those hard-to-reach nuts and bolts!

- Heavy-duty double socket incorporates a through design which can tighten nuts on long bolts or all-thread rod without bottoming out.
- Double socket permits use on either 5/8" or 3/4" Heavy Hex Nuts without changing sockets. Also eliminates common misplacement of loose sockets and introduction of dirt into the mechanism while changing sockets in the field.
- Increased number of socket teeth requires less stroke to ratchet.
- Heavy-duty ratchet mechanism is lubricated and enclosed in a sealed ductile iron casting to prevent debris from jamming.
- Wrench is painted black and is 16" O.A.L.

**SMALL SOCKET**

fits heavy hex nuts on 5/8" bolts used on clamps, couplings, saddles and 3" Mechanical Joints

**LARGE SOCKET**

fits heavy hex nuts on 3/4" bolts, used on 4" through 24" Mechanical Joints

**PLATED STEEL BOLT AND WING NUT**  
lock heavy duty 12" ductile iron handle to the ratchet head

**EASY ACTION LEVER**  
reverses direction

**SLIP RESISTANT RESILIENT GRIP**

**WING NUT AND BOLT**  
can be installed from either side of assembly to minimize interference

**OILER FEATURE**  
allows for easy lubrication without disassembly
