SOLADYNE® SOLAR WATERPROOF FLASHLIGHT

PRODUCT NUMBER: 7425

I. GENERAL DESCRIPTION

Features: The SolaDyne® Solar Waterproof Flashlight is a self-powered, 3 LED flashlight that is waterproof to 33' and operates on high and low illumination, as well as, all three LEDs flashing. It is solar powered or generate power using the dynamo hand crank. (See back for all specifications).

Benefits: Great for use in areas in and around water. It floats so if dropped into deep water it may be retrieved. Great for use in damp areas because the water-tight seal will keep moisture from corroding internal parts.

Uses: Great for use in wet environments such as boating, snorkeling, and severe weather environments. Also may be used as a reliable flashlight for emergency preparedness, camping, home, auto, and office.

Warnings: Read all instructions thoroughly prior to use. Avoid pointing the light at eyes. Remember to turn off when not in use and while charging. Not intended for use in explosive atmospheres or locations.

Packaging:
