When creativity strikes your pencil needs to be ready! With many shapes and sizes to choose from, Dahle offers several solutions to insure that you’re never scrambling to sharpen your creative instrument. These professional sharpeners will sharpen graphite pencils as well as standard and oversize colored wax pencils. Dahle offers three lines of sharpeners that include hand held models, lead pointers, and rotary sharpeners that feature Dahle’s revolutionary Automatic Cutting System.

HAND HELD SHARPENERS
From our pocket sized wedge sharpeners to our ergonomically correct “Chubby”, these sharpeners feature a steel cutting blade that is replaceable. Our canister sharpeners have either a single hole for normal pencils or offer a double hole for oversized artist pencils. Each shavings cup can easily be removed and emptied. Our round bottomed “Chubby” sharpener fits comfortably in the palm of your hand and is available with a blue, red or yellow top. These sharpeners are fun to use and are a great item for younger artists.

ROTARY SHARPENERS
It’s all about control with Dahle’s rotary pencil sharpeners. With the twist of a dial you can set the degree of sharpness for your pencil. Whether you need a fine tip or a blunt edged point, Dahle’s Automatic Cutting System sharpens to your personal preference then spins freely to prevent over sharpening. These sharpeners not only give you the optimal results you desire but they also save lead. Our rotary sharpeners can easily be cleaned to remove any waxy buildup. Dahle Rotary Sharpeners accommodate standard graphite and oversized artist pencils. A mounting clamp is included but not necessary for portable sharpening.

LEAD POINTERS
Designed to be used on 2mm drafting leads, these sharpeners gently shave the outer edge of the leads and provide a perfectly contoured edge. Each unit features integrated steel milled blades that the pencil rotates around and spins freely once fully sharpened. Dahle Lead Pointers are hand held devices and include a cleaning plug to remove excess lead shavings.
**Hand Held Sharpeners**
- Screw fastened metal blades are replaceable
- Lightweight and portable to take anywhere
- High quality plastic body catches shavings to reduce mess (excludes 53459, 53485)
- Double opening accepts oversized artist pencils (53460, 53463)

**Rotary Sharpeners**
- Automatic Cutting System sharpens lead evenly and prevents over sharpening
- Precision cutting blades made of Solingen steel
- Steel sharpening blades are replaceable (155/166)
- Moulded to fit comfortably in the palm of your hand (53460)
- Easy to clean transparent shavings cup
- Accepts oversized artist pencils
- Point adjuster for sharp or blunt tip

**Lead Pointers**
- Rotary lead pointer for use on 2mm leads
- Automatic cutting stop mechanism (301)
- Ideal for drafting or sketching kits
- High quality plastic body catches lead shavings to reduce mess
- Feature two measuring devices for writing or precision drawing points (302)
