

SECURAL mallet• head and handle made from one piece of steel, rectangular and break-proof inserts

3380.040

Product Description

The mass ratio of mallet head to shot is optimally tuned to the spring properties of the striking faces. This together with the low overall weight of the mallet ensures that work is particularly easy on the joints.

Thanks to its rectangular inserts, SECURAL is the specialist mallet with benefits when working with corners and edges.

The longitudinally welded housing ensures an absolutely unbreakable connection between mallet and handle.
